Cyma Technologies instruments are registered with the FDA as Class I devices. Known as electric, acoustic massagers, these products may relieve minor aches and pains.

**Success with AMI in 20 minutes**

**Add the Science of AMI to your life...**

AMI—Acoustic Meridian Intelligence is a non-invasive, sound therapy that helps restore the body to optimal health, balance and function. It uses advanced instruments to transmit to the body’s organs and tissues the frequencies associated with healthy cells, supporting the body’s natural healing abilities.

Today, many scientists have shown that the human body is a dynamic energy system and that our cells, organs and tissues have their own vibratory nature. This natural, or resonant, frequency can become upset or imbalanced, leading to pain, illness or disease. Cyma Technologies instruments are the culmination of over 50 years of research and development. Cyma Technologies has developed unique and internationally patented instruments that deliver precise combinations of frequencies associated with healthy tissue and organ systems. These sound waves help to normalize imbalances and synchronize the cell’s frequency back to its natural healthy state of vibrational resonance.

Ask your Licensed Healthcare Practitioner how you can experience AMI—Acoustic Meridian Intelligence, today!

PAD Study published and presented BEMS 30th Annual Meeting June 2008
AMI—Acoustic Meridian Intelligence™ is a non-invasive sound therapy that helps restore the body to optimal health, balance and function. It uses advanced instruments to transmit frequencies to the body’s organs and tissues associated with healthy cells, supporting the body’s natural healing abilities.

Today, many scientists have shown that the human body is a dynamic energy system and that our cells, organs and tissues have their own vibratory nature. This natural or resonant frequency can become upset or imbalanced, leading to pain, illness or disease.

Cyma Technologies has developed instruments (the AMI750 and AMI1000) that deliver precise combinations of frequencies or "commutations" associated with healthy tissue and organ systems. When applied to the body, these sound waves help to normalize imbalances and bring the cell’s frequency back to its natural healthy state of vibrational resonance.

The AMI instruments are the culmination of over 50 years of research and development. They are registered with the FDA as Class I devices, and known as an electric, therapeutic, acoustic massagers.

AMI Facial Rejuvenation benefits reported by participants:
- Deep relaxation reached quickly during the session
- Facial tone greatly improved—even at the end of one visit
- Increased circulation—visibly less puffiness
- Tolerance for high stress levels improved
- Able to go to sleep quicker, with deeper, more restful sleep
- Others say I look 10 years younger!

Add AMI—Acoustic Meridian Intelligence™ to your life!
Cyma Technologies offers great innovation with the AMI750 and AMI1000 instruments. Training and certifications are provided in the following programs:
- AMI Facial Rejuvenation
- HOW—Height of Wellness
- CCP—Certified Cymatherapy Practitioner

Please note: Cyma Technologies does not make any diagnosis or medical claims. The audible tones emitted by the AMI750 relax and support the body.
AMI Facial Rejuvenation

This technique is based on 5,000 years of Chinese Meridian Therapy. Facial muscles and nerve endings are stimulated and re-invigorated by opening the energy channels throughout the body. This ancient wisdom, dating back to the courts of the renowned Chinese emperors, combined with today's advanced sound technology—AMI—Acoustic Meridian Intelligence, confirms the internal pathways known for thousands of years in the secrets of Taoist Alchemy.

Access the elixir of youth and vitality
- to reduce stress,
- tonify internal organs
- and improve circulation

Experience the connection of the rivers of life through advanced sound technology.

Before:                     After 6 weeks:

How It Works

The technique that your therapist will use includes a gentle massage of the face reflexology points and zones.

You will experience deep relaxation, increased circulation and an effective removal of toxins from your facial tissues.

Research studies show that deep relaxation helps to eliminate many stress related ailments. Decreased stress is directly associated with a stronger immune system.

These techniques are combined with the use of a therapeutic sound device, delivering frequencies through the soles of the feet. This pre-programmed instrument is known as the AMI750.

These techniques are valuable for men, women and children. All can benefit from stimulating and balancing the precious life force.

The combination of AMI™ sound therapy and facial reflexology creates a synergistic phenomenon!
AMI – Acoustic Meridian Intelligence

Advanced Technology in the Science of Sound

Acoustic Meridian Intelligence

- Applied through the pathways of meridian therapy,
- Based on the audible frequency programs researched by British osteopath, Dr. Peter Guy Manners, and
- Combined with today’s internationally patented-pending technology to deliver phenomenal and fast results!

Please note: Cyma Technologies does not make any diagnosis or medical claims. The audible tones emitted by the AMI750 relax and support the body.

Add the Science of AMI to your office...

The AMI750 is a user-friendly device based on the effectiveness of acoustic sound traveling the energy pathways of the meridian system to relax and support the body’s balance.

The AMI750 comes pre-programmed with three protocols approximately 20 minutes in length and is ready for immediate use!

- Channel 1 ~ Stress Reduction
- Channel 2 ~ Chakra/Endocrine Balance and
- Channel 3 ~ Vitality

- Channels 4-10 are available for ‘patient specific’ protocols.

Patients can experience sessions with the AMI750 in the office, and purchase or lease the AMI750 for home use; daily application will support care between visits to the doctor.

The AMI750 is easy to use by powering ON and selecting desired Channel. The patient relaxes while their feet rest on the soft gel pads during the 20-45 minute protocols. The AMI750 is portable and weighs just 8 lbs.

Patient specific protocols can be updated on future visits to your Doctor. The AMI750 is effective for ‘long distance’ patients, as well. After patient consultation, the AMI750 can be programmed ‘at a distance’ and your care can continue until your next visit to your licensed healthcare practitioner.

Height of Wellness Program

The "Height of Wellness" is a comprehensive program for health building and preservation. The complete wellness of a human being consists of many components which can be supported and cultivated through vibrational healing.

The "Height of Wellness" program draws from the five element theory of Chinese medicine dating back over five thousand years ago. It is one of the ancient medical systems still known and widely practiced today.

In addition to the five elements, the program includes protocols (groups of frequency patterns) for color and vitamin imprinting, tones for healthy emotional responses and an immune system booster that addresses all of the facets involved in building and maintaining health. The HOW program can be used daily, weekly or on an as-needed basis.

Let the Height of Wellness be the start of a new journey of self-healing and vibrant living!

Welcome to the Height of Wellness
a program for establishing balance through Advanced Sound Technology

Complete the Five Element Health Questionnaire
to determine where you need balance.

Height of Wellness Protocols for Establishing Balance

1. Meridian Balancing—provides energetic harmony to the body.
2. Brain Wave Harmony—activates deep levels of relaxation.
3. Water Element Balancing—aids in moving fluids and nutrients effectively through the body.
4. Wood Element Balancing—helps to cleanse the body of toxins.
5. Fire Element Balancing—great for reducing inflammation in the body.
6. Earth Element Balancing—delivers digestive system support.
7. Metal Element Balancing—provides enhanced respiratory function.
8. Vitamin/Color Imprinting—stimulates the body’s vibrational healing potential.
10. Well Being Channel—supports the emotional body and stabilizes vitality.

AMI—Acoustic Meridian Intelligence™ is a non-invasive sound therapy that helps restore the body to optimal health, balance and function. It uses advanced instruments to transmit frequencies to the body’s organs and tissues associated with healthy cells, supporting the body’s natural healing abilities.

Today, many scientists have shown that the human body is a dynamic energy system and that our cells, organs and tissues have their own vibratory nature. This natural or resonant frequency can become upset or imbalanced, leading to pain, illness or disease.

Cyma Technologies has developed instruments (the AMI750 and AMI1000) that deliver precise combinations of frequencies or “commutations” associated with healthy tissue and organ systems. When applied to the body, these sound waves help to normalize imbalances and bring the cell’s frequency back to its natural healthy state of vibrational resonance.

The AMI instruments are the culmination of over 50 years of research and development. They are registered with the FDA as Class I devices, and known as an electric, therapeutic, acoustic massagers.

Participants who utilize HOW report the following benefits:

- Deep relaxation—“...More calm in my everyday life.”
- Feeling more fit even without exercise, able to handle stress—“the little things don’t bother me so much!”
- Increased energy levels—“I feel like exercising!”
- Less mental fog—“I’m thinking faster.”
- Improved sleep—“no more anxiety at night.”
- Visible difference—“Others say I look younger!”

Please note: Cyma Technologies does not make any diagnosis or medical claims. The audible tones emitted by the AMI750 relax and support the body.
